Lorenzo:

Thanks. I will plan on calling her but if you want to touch base with her also, that would be great.

Do you want to discuss prior to us making calls to make sure we are relaying same message?

Thanks
Jason

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Good Morning, Jason,

Thanks for your email. Yes I did read from the email communication between you and Don and Doug, my Branch Chief, in preparation of our recent 3-1-17 NWIRP-Northrop Grumman groundwater quarterly meeting that you had just replaced Steve. In that case, good luck to both you and myself, as I too just took over NWIRP-NG couple of weeks ago or so.

I've pasted below your email an email from Arlene Johannets to Carol Stein, my predecessor. Her mom is selling her home in the Bethpage area and it sounds like she wants an update on OU 2 and OU 3 work and any potential risks/impact from them. Based on Google Earth, the Ex. 6 Personal Privacy (home address) rt property appears to be slight off to the east of OU 3 Plume. I'm all OK with responding to Ms. Johannets but, since NYSDEC has the lead, I wanted to at least give the opportunity to you to respond if you wish to. If you do, I will at least call Ms. Johannets to introduce myself and let her know that you will be contacting her. Just let me know.

Thanks, Jason.

Lorenzo

Lorenzo:

Thanks for the call and sorry I missed you. I stepped away from my desk for just a few minutes.

I am fine either way. Can you send me the name and address (if you have it) for the homeowner?

Were they interested in any particular site activities?

I may check with my predecessor (Steve Scharf) prior to a response. Not sure if you are aware, but I took over this project in mid-December and am still getting up to speed on all the activities.

Thanks and call me if you want to discuss.

Jason

Hi Carol,

My Mom lives in Bethpage and is selling her home. The house is at **Ex. 6 Personal Privacy (home address)**
Ex. 6 Personal Privacy (home address) A potential buyer is asking about the current status of the Grumman plume and the effects on the property. I was hoping you could help me accurately answer this question.

Thank you
Arlene Johannets
